

GET ON THE BEACH!

There is truly an art to finding shark teeth, sea beans, sea glass and other beach treasures. It starts with a keen, trained eye. And it doesn't hurt if you know where on the beach to look if you're serious about finding what you're looking for. Let us arrange a guided "hunt" for your group as you collect "supplies" for your art workshop to follow. No animals will be harmed before, during or after our "hunts".
