

HEALTHY LIVING

You really can live and eat healthy at the beach. Let us schedule a customized health & wellness workshop for your private group featuring a certified health coach who not only talks the talk but walks the walk.

A licensed cosmetologist, aesthetician & makeup artist is also available to show you how to maintain healthy skin using products that come from the ocean. Peace and tranquility await you and yours. Limited to 10. Women only.

*All our workshops are based on availability of “artist” and require advance notice.
